1. The EU member states should create a common military.

2. Trading financial products (e.g. stocks) should be taxed.

3. There should be a mandatory women's quota in the management level of big companies.

4. The legal voting age should be lowered to 16 years.

5. Governments should spend less money trying to rehabilitate some criminals.

6. In the future the EU should grow into the „United States of Europe".

7. The Government should be allowed to gather and save personal Data to protect its citizens (e.g. from terrorist attacks).

8. The EU should support private sea rescue missions in the Mediterranean.

9. By German law, an abortion can only take place if the 13th week of pregnancy is not reached and a consultation is completed. Should those laws be relaxed?

10. The EU is currently the world largest donor of development funds with a spending of 74,4 billion EUR in 2018. Should the EU maintain those levels of development assistance spending?

11. The State should be allowed to expropriate citizens if they do not use or rent out their property in major cities.

12. The EU budget of 1% of the European GDP should be expanded to allow for more European projects.

13. Governments should combat climate change by tougher restrictions/laws instead of just setting economic incentives.

14. The EU should maintain the current level of financial support for the agricultural sector.

15. There should be an annual upper limit for the admission of new asylum seekers.

16. The issues of the LGBTQI* community are not being addressed sufficiently. Therefore, they should have direct representatives in the legislative bodies.
